

Roadmap to Virtual Learning

Bringing Learning to Remote Learners

Virtual Learning Roadmap

Asynchronous Learning

Learning that is self-paced and flexible

- Training on the learner's schedule
- Time for reflection and additional review of materials
- Examples: Podcasts, Online Discussion boards, Pre-recorded video lessons/webinars

How does MLevel Help?

- Standalone course | module
- Integrate eLearning | SCORM modules
- Knowledge Check, Reinforcement Module

Deliver asynchronous learning via MLevel deep links both at the mission and activity level

Media

Embed learning assets such as: video, SCORM, podcasts, and more!

Activities

Reinforce and assess learning via the various game/learning activities

Coaching

Utilize the external link activity + a calendar scheduling tool to easily schedule coaching sessions when needed

Analytics

Analyze Class Performance and Knowledge Gaps
Hourly/Daily/Weekly

Virtual Learning Roadmap

Synchronous Learning

Learning that takes place in real-time!

- Interaction with instructors and fellow learners
- Immediate feedback and the ability to ask questions
- Examples: Live Webinars, Video Conferencing, Virtual Classrooms

How does MLevel Help?

- In-session Knowledge Check
- In-session engagement opportunities
- Post-session evaluation | reinforcement
